WORK EXPERIENCE

Front End Developer Universal Web Technologies

09/2022 - 03/2024

Nagpur

Achievements/Tasks

- Developed responsive and interactive web interfaces using HTML5, CSS3, and JavaScript.
- Created intuitive UI/UX designs, ensuring seamless user experience across various devices and platforms.
- Utilized modern front-end frameworks and libraries like React.js to build dynamic web applications.
- Collaborated with teams using Git and GitHub/Bitbucket for version control, ensuring code consistency and team coordination.
- Integrated third-party libraries and tools to enhance the functionality and performance of web pages.
- Optimized web performance by implementing techniques such as lazy loading, image compression, and minification of CSS and JavaScript files.
- Worked closely with back-end developers to ensure smooth integration of APIs and back-end services into the front-end.
- Participated in daily stand-ups, sprint planning, and retrospectives as part of Agile development teams.
- Implemented basic SEO practices, improving website visibility and accessibility.
